

How to create a new board in Trello

trello 4 steps · 30s

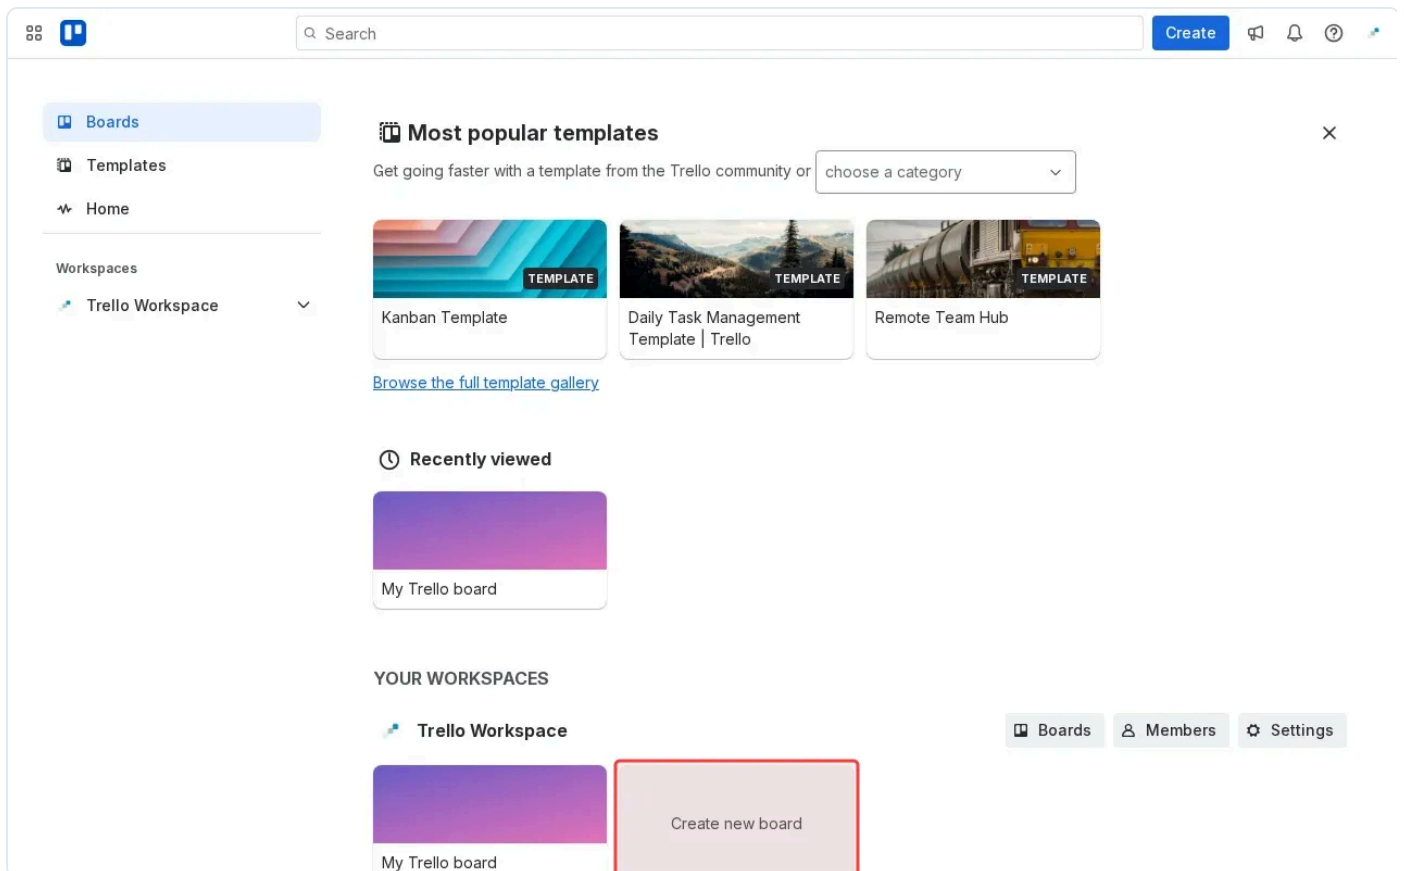

- 1 Click 'Log in' to access Trello account.

2 Scroll to reveal login form elements.

3 Click 'Create new board' to start board creation.

4 Type board title in the required field.

The screenshot shows the Trello interface with a 'Create board' modal open. The modal contains a preview of a board, a 'Background' section with image thumbnails, a 'Board title' input field (highlighted with a red rectangle and marked as required with an asterisk), a 'Board title is required' error message, a 'Visibility' dropdown set to 'Workspace', and buttons for 'Create' and 'Start with a template'. The background of the modal shows the Trello dashboard with a sidebar on the left containing 'Boards', 'Templates', 'Home', and 'Workspaces' (with 'Trello Workspace' selected). The main area displays 'Most popular templates' (including 'Kanban Template' and 'Daily Task Management Template'), 'Recently viewed' (showing 'My Trello board'), and 'YOUR WORKSPACES' (also showing 'My Trello board'). A 'Create new board' button is visible at the bottom right of the dashboard area. The top of the dashboard has a search bar, a 'Create' button, and notification icons.
